## **RENTAL INSPECTION CHECKLIST**

Item		Inspection		Re-inspection (if necessary)	
item	Pass Date P		Pass or Fail	Date	
A. Railing is present for interior and exterior steps with more					
than 3 risers.					
B. The interior of the property is clean and sanitary. *A					
property may pass inspection if there are interior sanitation					
violations that are solely the responsibility of the tenant to					
abate, unless the conditions create an imminent threat to life.					
C. The interior of the property free of all signs of infestation by					
rodents, insects, or pests.					
D. Gas and electric service is properly installed and ready for					
service.					
E. Electrical wires are not visible in living areas					
F. All electrical outlets are grounded and protected by cover					
plates. All lighting fixtures are functional and switches					
protected by cover plates.					
G. Smoke Detectors are properly installed and in proper					
working order. There is one smoke alarm on every level of the					
home and inside each sleeping area.					
H. Carbon Monoxide Alarms are properly installed and in proper					
working order. Carbon Monoxide Alarm is located outside of					
sleeping area and near fuel-burning heating units. (Enter N/A if					
not required because there is: no fossil fuel burning devices; no					
fireplaces; no attached garages).					
I. There is both hot and cold running water with the hot water					
having a minimum temperature of 110°F. Adequate water					
pressure throughout with no leaks below fixtures and all toilets					
properly flush.					
J. If there is a bedroom in the basement, there is proper egress					
in case of fire. (Enter N/A if no basement bedroom.)					
K. Property is free of interior leaks. No standing water in the					
basement					
L. Windows function properly with locking mechanism.

Item	Inspection		Re-inspection (if necessary)	
Item	Pass or Fail	Date	Pass or Fail	Date
M. Interior walls are free of holes that will allow rodents,				
insects, or pest to enter.				
N. Exterior walls are free of holes that will allow weather,				
rodents, insects, or pest to enter.				
O. Exterior gutter and downspout system is installed and				
designed to channel water away from the property.				
P. The exterior is clean, sanitary, and free of rodent burrows				
and all trash and debris that could attract infestation by				
rodents, insects, or pest.				
Q. If property built prior to 1978, no peeling, flaking or chipping				
paint on the interior or exterior.				
(Enter N/A if not required)				
R. If the inspection is being conducted during the period of				
October 1 and April 30 <sup>th</sup> , inclusive, the property must have a				
sufficient heat supply to maintain an average temperature of				
70°F in all habitable rooms, bathrooms and toilet rooms and				
65°F in all other rooms. (Enter NA if the inspection is conducted				
outside this timeframe.)				
S. Are there any other readily observable problems that don't				
meet the minimum requirements of the Baltimore City				
Building, Fire, and Related Codes that in the inspector's				
opinion represent an immediate threat to the health or safety				
of the occupant? If "yes" please describe on separate sheet				
and submit with this inspection form.				

## NOTE:

- 1. This inspection is limited to the checklist items and has been performed to the requirements set forth by the Baltimore City DHCD as required under Article 13 Subtitle 5 of the Baltimore City Code.
- 2. This inspection shall not be construed as a home inspection as defined under Maryland law.
- 3. The Inspector completing this report may not repair, or recommend any person to repair, any of the items listed below that fail.
- 4. If scanning multiple forms please keep them in one pdf.
- 5. Photographs are not required.
